*“After drinking \*\*\*\*\* \*\*\*\*\* \*\*\* once daily for **14 days**; his biopsy results received that day, showed that his ‘**stage 4**’ large **thyroid cancer** was now ‘**benign**’; and advised that he no longer needed surgery. On 24th January'25, the biopsy result on his **Kidney cancer** was also **down-graded** (as it was barely noticeable). Again, Mr Mann was advised that he did not need any treatment, but will have check-ups every 6 months”.*

# GETTING THE NATION BREWING

- '3 month' Health Challenge -
